

Registry for individuals to provide expert support for SB conferences

Conferences that take part in the SB conference series are required to include peer-reviewed papers. Conference organizers will also require plenary speakers and session moderators. This registry will signal your interest and willingness to take on one of these roles, and we will make all responses available to SB conference organizers. This survey is distributed on behalf of all the international organizations promoting these events, including CIB, iiSBE, UNEP-SBCI and FIDIC.

Name

Title and Division

Org / University

Country

E-mail

My main interest is to be:

part of a scientific committee

a plenary speaker

a session moderator

My level of comprehension, oral and writing in English is:

excellent

very good

good
